Subject: RE: Media Plan overview for sampling
removed.txt

There is no media event planned per UC instruction.

The PIOs on site will only be a point of contact if, and only if, local media asks to take photos or something. They are there to help make sure that the scientific work and sampling work are not interfered with.

We are not offering anything to the media but we need to be prepared in case one of them asks to observe a sampling team in the field.

Sorry if there has been confusion.

I'm OK with the plan as long as we follow the proposal as outlined at our meeting. Press release, but not an escorted media event.

Thank you!

Mark

This works for LOSC. We would appreciate as much lead time as possible for the press release.

As far as working titles, we'd suggest not using the words "post-cleanup" or "baseline." Perhaps something along the lines of, "Refugio Incident Ongoing Sampling" or "Refugio Incident Area Sampling Survey?"

Subject: Media Plan overview for sampling
Importance: High

JIC will prepare press release on the sampling event.

- Press release (working on it with sampling team) drafted – will come to UC for review
- Press release embargoed distribution to local elected officials first (hopefully tomorrow if first day of sampling)

- Press release to all media for Santa Barbara, Ventura, Los Angeles and Orange counties 30 min to 1 hour later
- A pre-designated location and time for observing the activity will be provided only to the media that inquire about meeting one of the teams at the beach.
- A PIO will be provided for each sampling team (one North and one South) to escort and manage any media that arrive.

Possible working titles:

- Refugio Response Post-Cleanup Reference Sampling
- Refugio Incident Beach Monitoring Baseline Sampling

Working on an FAQ to assist JIC team.

Please advise if this meets your expectations.
